

Determine if String Halves Are Alike:-

Code:-

```
class Solution {
    public boolean halvesAreAlike(String s) {
        int count1 = 0;
        int count2 = 0;
        int mid = s.length() / 2;
        for (int i = 0; i < mid; i++) {
            if (isVowel(s.charAt(i))) {
                count1++;
            }
        }
        for (int i = mid; i < s.length(); i++) {
            if (isVowel(s.charAt(i))) {
                count2++;
            }
        }
        return count1 == count2;
    }
    public boolean isVowel(char c) {
        return "aeiouAEIOU".indexOf(c) != -1;
    }
}
```

Output:-

The screenshot displays the LeetCode submission page for the problem "Determine if String Halves Are Alike". The submission is marked as "Accepted" with 113/113 testcases passed. The runtime is 4 ms, and the memory usage is 43.04 MB. The code is written in Java and is shown in the editor. The test results section shows the input "book" and the output "true", which matches the expected result.

Runtime: 4 ms | Beats 54.94%

Memory: 43.04 MB | Beats 61.53%

Testcase: Accepted Runtime: 0 ms

Case 1: Input: s = "book", Output: true, Expected: true

Lapindromes:-

Code:-

```
import java.util.*;

class Main {

    public static void main(String[] args) {

        Scanner sc = new Scanner(System.in);

        int T = sc.nextInt();

        while (T-- > 0) {

            String s = sc.next();

            int n = s.length();

            int mid = n / 2;

            int[] count = new int[26];

            for (int i = 0; i < mid; i++) {

                count[s.charAt(i) - 'a']++;

            }

            int start = (n % 2 == 0) ? mid : mid + 1;

            for (int i = start; i < n; i++) {

                count[s.charAt(i) - 'a']--;

            }

            boolean lapindrome = true;

            for (int i = 0; i < 26; i++) {

                if (count[i] != 0) {

                    lapindrome = false;

                    break;

                }

            }

            System.out.println(lapindrome ? "YES" : "NO");

        }

    }

}
```

Output:-

Test against Custom Input

6
gaga
